On-the-record statement regarding travel: **“Administrator Pruitt’s security detail followed the same procedures for the G7 environmental meeting in Italy that were used during EPA Administrators Stephen Johnson, Lisa Jackson, and Gina McCarthy’s trips to Italy. EPA’s security procedures have not deviated over the past 14 years.”** – EPA spokesman, Jahan Wilcox

Hi Jahan -- Wondering if the EPA has a comment about the newly obtained documents that show it cost the EPA \$30k for Scott Pruitt's security detail to travel with him on the Italy trip last year.

Did the security team travel first class?

Does the EPA think this is a necessary amount for security?
